

# iSTATUSWATCH

iPAD, iPHONE & IPOD APP

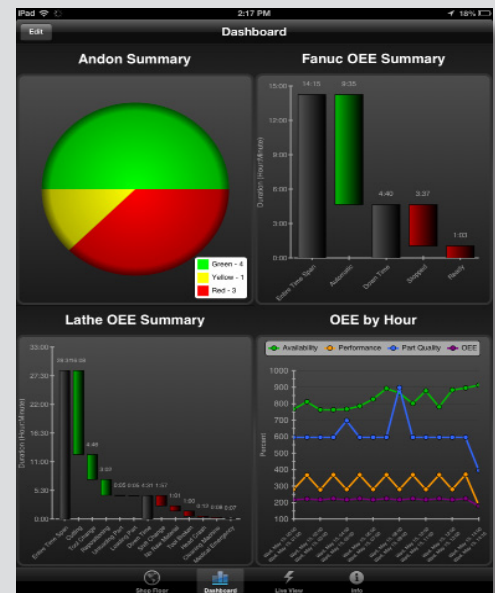

StatusWatch

Meet our new iStatusWatch application. Discover your asset's real-time and historical data using your iPad, iPhone and iPod devices.

- Connect with your facility's StatusWatch installation through your iPad, iPhone and iPod devices.
- No matter their location, allow management to keep a close eye on all of their assets.
- Generate pre-built reports and tables to discover how all of your assets are performing.
- Discover the current state of your assets with the iStatusWatch Live View.

Simply generate pre-built reports and tables.

The Live View report shows you the current state of your assets.

Drill-down into your assets to discover performance metrics.
